

HOW TO DRESS UP YOUR LBD FOR THE HOLIDAYS

Your go-to little black dress is easy to update with the season's hottest accessories.

A little ribbon is perfect for the season and comfortable to wear all night. Plus, the length of the necklace can be adjusted depending on the scoop of your dress's neckline.

This mixed-material crystal and faux pearl piece is heavy on fashion-forward texture yet light on your neck.

TREND ALERT: *One Dress, Five Looks*

These jeweled toned sequined clutches amp up the glam factor, so why have one when you can have two?

A barely-there necklace will bring a modern vibe to your cocktail dress. The subtle string makes the beading, and your neckline, the star attraction.

With high-gloss faux pearls on a metal chain, this necklace is an elegant mix of hard and soft. Try it around your wrist, too!
